Plant and Soil **177**: 265–268, 1995.

Contents Volume 177 (1995)

Research articles

Symbiotic N_2-fixation by the cover crop *Pueraria phaseoloides* as influenced by litter mineralization 1–10
J.M. Vesterager, S. Østerby, E.S. Jensen and J.K. Schjoerring

Response of rice varieties to soil salinity and air humidity: A possible involvement of root-borne ABA 11–19
F. Asch, K. Dörffling and M. Dingkuhn

Is the Ca:Al ratio superior to pH, Ca or Al concentrations of soils in accounting for the distribution of plants in deciduous forest? 21–31
U. Falkengren-Grerup, J. Brunet, M.E. Quist and G. Tyler

Ammonia volatilization from tropical legume mulches and green manures on unlimed and limed soils 33–41
K.M. Glasener and C.A. Palm

The effect of cadmium on the activity of nitrifying populations in two different grassland soils 43–53
L. Dušek

Nitrogen fixation of common bean (*Phaseolus vulgaris* L.) as affected by mineral nitrogen supply at different growth stages 55–61
S.H. Müller and P.A.A. Pereira

Architectural analysis and modelling of the branching process of the young oil-palm root system 63–72
C. Jourdan, H. Rey and Y. Guédon

Effect of temperature on rice growth in nutrient solution and in acid sulphate soils from Vietnam 73–83
V. Dinh Quang, T. van Hai and J.E. Dufey

Rate of soil acidification under wheat in a semi-arid environment 85–100
R. Poss, C.J. Smith, F.X. Dunin and J.F. Angus

Carbon isotope composition of N_2-fixing and N-fertilized legumes along an elevational gradient 101–109
J.D. Knight, J.E. Thies, P.W. Singleton and C. van Kessel

Grain legumes and green manures as pre-rice crops in Northeast Thailand. I. Legume N_2-fixation, production and residual nitrogen benefits to rice 111–126
J.F. McDonagh, B. Toomsan, V. Limpinuntana and K.E. Giller

Grain legumes and green manures as pre-rice crops in Northeast Thailand. II. Residue decomposition 127–136
J.F. McDonagh, B. Toomsan, V. Limpinuntana and K.E. Giller

Research articles

Suitability of rhizobia-inoculated wild legumes *Argyrolobium flaccidum, Astragalus graveolens, Indigofera gangetica* and *Lespedeza stenocarpa* in providing a vegetational cover in an unreclaimed limestone quarry 139–149
P.K. Jha, S. Nair, M.C. Gopinathan and C.R. Babu

Boron toxicity in barley (*Hordeum vulgare* L.) seedlings in relation to soil temperature 151–156
V. Mahalakshmi, S.K. Yau, J. Ryan and J.M. Peacock

Simulation of the decomposition and nitrogen mineralization of aboveground plant material in two unfertilized grassland ecosystems 157–173
H.S. Bloemhof and F. Berendse

Limitations of a calculated N mineralization potential in studies of the N mineralization process 175–181
L. Dendooven, R. Merckx and K. Vlassak

Diagnosis of nitrogen deficiency and toxicity of *Eucalyptus globulus* seedlings by foliar analysis 183–189
E. Shedley, B. Dell and T. Grove

In vitro weathering of phlogopite by ectomycorrhizal fungi. I. Effect of K^+ and Mg^{2+} deficiency on phyllosilicate evolution 191–201
F. Paris, P. Bonnaud, J. Ranger and F. Lapeyrie

Effect of one year rotational set-aside on immediate and ensuing nitrogen leaching loss 203–209
C.P. Webster and K.W.T. Goulding

Exploitation of localized phosphorus-patches by common bean roots 211–218
S. Snapp, R. Koide and J. Lynch

Suppression of *Pythium aphanidermatum* in composts prepared from sugarcane factory residues 219–223
M. Theodore and J.A. Toribio

Root water uptake of field-growing plants indicated by measurements of natural-abundance deuterium 225–233
P.J. Thorburn and J.R. Ehleringer

Using NCSWAP to simulate seasonal nitrogen dynamics in soil and corn 235–247
Z. Dou and R.H. Fox

Screening for boron tolerance in wheat (*T. aestivum*) by solution culture in filter paper 249–254
Y. Chantachume, D. Smith, G.J. Hollamby, J.G. Paull and A.J. Rathjen

Nitrogen incorporation and remobilization in different shoot components of field-grown winter oilseed rape (*Brassica napus* L.) as affected by rate of nitrogen application and irrigation 255–264
J.K. Schjoerring, J.G.H. Bock, L. Gammelvind, C.R. Jensen and V.O. Mogensen

Contents Volume 177 (1995) **265–267**
